December 13, 2023

The Honorable Jim Justice  
Governor of West Virginia  
State Capitol, Building 1  
Charleston, West Virginia 25305

Dear Governor Justice,

The West Virginia Board of Respiratory Care is pleased to provide you with our annual report for the period of July 1, 2022, to June 30, 2023, in accordance with Chapter 30-1-12 of the West Virginia State Code.

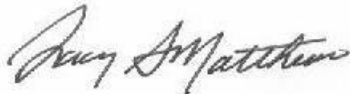

The mission of this agency is to protect the public by providing competent and qualified respiratory therapists for the citizens of West Virginia. The West Virginia Board of Respiratory care provides oversight of the licensing of respiratory therapists, provides guidelines for licensing requirements, renewal of licenses, continuing education requirements, and investigations and/or prosecution of license violations.

The Board of Respiratory Care consists of seven members appointed by the governor with the advice and consent of the senate. Members consist of one lay person, one practicing physician currently licensed to practice in West Virginia with certification, clinical training and experience in the treatment of pulmonary diseases, and five members engaged in the practice of respiratory care during five years immediately preceding their appointment.

The Board of Respiratory Care works with state and national organizations to maintain the highest standards of the practice of respiratory care to ensure the citizens of West Virginia are protected and offered the highest quality of care in the practice of respiratory therapy. Respiratory Therapists have been one of the leading professions in the treatment and care of COVID-19 patients in all aspects of the healthcare field.

Please contact our office with any questions or comments regarding the information contained in this report.

Respectfully submitted,

Tracy S. Matthews, MBA, RRT, LRTR  
Board President

## OVERVIEW OF ACTIVITIES

Members of the Board of Respiratory Care are appointed to serve in a voluntary capacity. The Board members are selected from various regions of the state and are practiced in home care and acute care. The Board is composed of five respiratory therapists, one physician and one lay member. The composition of the Board provides a knowledge base to assure the public that all facets of respiratory care and private citizens' input are represented.

The West Virginia Board of Respiratory Care is an active participant in meetings across the state and national level. Their participation in these meetings addresses the areas of licensing, professional regulation, standards of care, clinical practice guidelines and overall changes to the healthcare delivery system. Several members of the board attend and are active in the American Association of Respiratory Care with a nationwide organizational capacity of over 50,000 members. With this continued involvement, the West Virginia Board of Respiratory Care and licensed practitioners in the State of West Virginia are abreast of national issues facing the current and future delivery of respiratory care services.

The Board also participates in the National Board of Respiratory Care's Disciplinary Database and the National Practitioners Data Bank – Health Practitioners Data Bank which are national databases of final disciplinary actions taken against respiratory care practitioners in all licensure states. Respiratory practitioners holding a license to practice in the State of West Virginia are categorized into Associates, Certified Therapists, and Registered Therapists. Pursuant to Legislative Rule 30CSR1, effective July 1, 2022, the board grants licensure to applicants applying as “new or reinstatement” with a registered respiratory therapist (RRT) credential conferred by the National Board of Respiratory Care. Any respiratory therapist certified (LRTC) credential conferred by the National Board of Respiratory Care prior to July 1, 2022, are grandfathered for licensure. Respiratory Educational Programs across the country are teaching to a registered level and no longer offering certified level of education.

As of June 30, 2023, the West Virginia Board of Respiratory Care maintained a total of 2,132 licenses, 37 inactive licenses, and 58 active student practitioners in its database. On March 26, 2020, the board suspended certain sections two rules; Establishment of Fees 2.2.1, 2.2.3, and Student Temporary Permits 2.1.1, 2.3.1, 3.1.6 to allow the board to expedite the issuance of licenses and/or permits to fast track more Respiratory Therapist into the healthcare field during the Covid-19 pandemic. The board further suspended the entire rule of Continuing Education Requirements to allow Respiratory Therapists to dedicate their time and effort in caring for the

patients in the State of West Virginia. On September 19, 2022, as COVID-19 cases declined, both aforementioned suspensions were rescinded by the board.

The board continues to recognize the National Board of Respiratory Care's examination as the criteria for licensing respiratory therapists and other credentials in the practice of respiratory care in the State of West Virginia. This national examination provides for interstate endorsement of licensees without further testing. The national examination is computerized and is offered to graduating students at more than 150 testing locations nationally. The West Virginia Board of Respiratory Care issues a license to practice when an applicant completes the educational requirements of graduation from a Respiratory Care Educational Program of a COARC accredited school and by passing at minimum, the entry level examination, and payment of appropriate fees. All applicants are verified with the National Board of Respiratory Care Disciplinary Database and the US Department of Health and Human Services Healthcare Providers Disciplinary Database. Moreover, if an applicant previously held or is currently licensed in another state, the applicant is verified by those states for any disciplinary action which may be completed or pending.

#### Board Activity – Fiscal 2023

August 2022, Dr. Rayan Ihle, board physician, attended the World Lung Conference in Austria in August 2022, to receive an international award for her work in lung cancer research. She recognized her work as a member of our board and continues to support licensure of respiratory therapists.

September 2022, Tracy Matthews and Rodney Vest represented our board in attending the West Virginia Society for Respiratory Care Fall Healthcare Conference at Glade Springs Resort in Daniels, West Virginia.

November 2022, Tracy Matthews represented our board at the American Association of Respiratory Care Conference in New Orleans, Louisiana.

December 2022, Sarah Massey attended the West Virginia Auditor's Office Annual Licensing Board training in South Charleston, West Virginia.

The board held five meetings during the fiscal year 2023. One formal hearing was conducted, and five consent agreements were issued. Attendance of meetings, webinars, conferences continue to be offered by teleconference. Video equipment was purchased in June 2023 to enable video conferencing.

During fiscal year 2023 the board experienced its highest volume of new and reinstatement of licensees which increased beyond anticipated volume due to the increasing demand for respiratory therapists in the treatment of COVID-19, RSV, and the new Telehealth law passed by the legislature in fiscal 2022.

Prior to COVID-19 the board averaged and volume of 115 new and reinstated licenses. In fiscal 2023 the board licensed 350 new and reinstated licensees alone. This will create excess funds to be transferred to the general fund.

The board continued to utilize its website for all processing of license activity. The website allows applicants to apply for new and reinstatement of licenses and to also request name changes, verifications, and annual renewal of their license in real time online. The board continues its efforts to become paperless and efficient for its licensees and employers.

The West Virginia Board of Respiratory Care continues to operate a web site at [www.wvborc.com](http://www.wvborc.com) with links to the West Virginia State homepage, various national organizations, and continuing education sponsors for respiratory care. Various forms, online license renewal payments, license verifications, and other information are available from the web site in continuing efforts for public communication. All monies and payments are processed by the West Virginia Treasurer's Office or the Treasurer's Office E-Gov for the board.

The board is committed to collaboration with other health related or licensing agencies and organizations in West Virginia and nationally, to identify needs, improve public access, and provide information about education, licensure practice, discipline, and accountability for health professionals. To this end, the board has continued to provide open public communication through its website and staffed office located at 106 Dee Drive in Charleston, West Virginia, 25311.
